About This Content

You've mastered the outbreak – now it's time to master the green, with eighteen holes of pure wanton destruction. Flip zombies the birdie with Super Ultra Dead Rising 4 Mini Golf where bloodthirsty, over the top zombie mayhem is par for the course. The world of Super Ultra Dead Rising 4 Mini Golf is extreme, the fairways are the town of Willamette, Colorado, including the iconic Willamette Memorial Megaplex Mall. As Frank West, use his favorite weapons as his set of golf clubs. With an oversize golf ball drive long and hard down the fairways, reaching for the green for the perfect putt. Watch your score as you do not want to bogey in this zombie filled eighteen-hole golf course. Mini golf is made crazier with the zombie horde as obstructions and hazards. Use your golfing and zombie slaying skills to overcome this mini golf course. Dead Rising Fore!

G59 till the grave. That's a time machine and it works perfect! So pleasant to deep into my 80th childhood... Game and math logic in the same box - what could be better? I've never got so much fun as playing this game.. Cool game with nice features

Recruiting citizens is mega fun

And this president is better than Trump, lol. This game was bomb af when I was a child and I wanted nothing more than to relive those amazing days of clicking on every single pixel on the screen at least 100 times just to make sure I didn't miss any secrets. **HOWEVER!!** For some reason its just decided NOT to work on my computer and will glitch out, severely lag and the arrow glitches to the point where I cannot even play the game at all :(I really wanted to give this a positive review but my experience with this particular version left me dissapointed because I payed 7 dollars to get a broken game. I've tried tinkering with it, reinstalling it, you name it and it just wont work for me D':. Most fun I've had in a challenging platformer V 'rage' platformer. Intrusion Protocol is definately something to add to your libraries if you want a tough game!. Smash a dummy. A lot.

A LOT.

"Destroyed" so many dots using the power-ups that I crashed the game. 10/10 would crash again.. Get it on sale, I mostly got this for the MP5 Blood camo and Grenade launcher anyway.

Great skin pack, but wait for a sale instead of paying \u00a36 for it.. Recommend for sure. Worth more than the price paid .
Enjoyed the game makers sense of humor and witt.. Pros
--it's fun if you like this sort of puzzle game

Cons

--annoying, repetitive music

--controls aren't the best

--not a ton of levels. <https://forum.paradoxplaza.com/forum/index.php?threads/vis-ther-any-plan-to-add-chinese-support-in-ck2%E3%80%81eu4%E3%80%81hoi4-and-stellaris%E3%9F.1077611/>

Just don't like what AndrewT response in the thread. Despite all the issues this game suffers from It isn't really that bad. I see far too many people complaining that using an Xbox controller has a terrible preset and I have to agree. It's downright awful! But with some tweaking you can easily get it to where It should be. But that's part of the problem I suppose- These days people cannot be bothered to do that.

What the game really lack is phasing. Simple as that. Even the cutscenes are somewhat slow and confusing! (Though most people should get the idea quickly enough.)

At the very start of the game you get the feeling your going backwards in time due to the races being so utterly slow but the more you progress the faster it goes. Not to mention the usage of powerups. Even so it will never be as fast as one expects but be thankful for it as the later tracks may prove somewhat difficult.

Although the Storyline is extremely short and some obvious issues with the game I'd still recommend it. Though not at full price but around \$3.
