Absolutely lovely, killed my first monster after some minutes trying to map my controls, even though i couldn't do it, got to area 3 right after one of the "cutscenes" started, the game crashes

10\/10 would drink bleach again
. The story needs a lot more work, sure the art is nice, but without a good story it's just not a good visual novel. If you're more so in it for porn or ecchi then it's great for you I suppose, but personally I buy visual novels for a good story, and this one is extremely lack luster (way over priced seeing I have 2 endings and have played an hour, and I'm a fairly slow reader, so it says a lot about how short the game is.. seeing there are 5 endings it will be extremely repetitive).. Very bad game. Un,alanced and random "win conditions". Apparently just four game modes. Played with friends, they hated it.

You choose a school to compete in one of four test, you can fight or just aim for main objective. At the end of all test, you get points for random reasons (or are very poorly explained). The mix of gameplays doesnt suit well.. Duration: 3 hours including bonus chapter

Decidedly average HOPA. Very uninspired.

4/10. Probably one of the worst games I've ever owned. Literally everything in it is crude, the GFX, the SFX, the dialogue, the coding, the level design, the gameplay, the camera, the controls, the UI, the presentation, everything about it is extremely low quality. It's like a bunch of schoolboys downloaded a free 2D platform game editor and squeezed out this turd in their free study periods. I got it in the Xmas sale at 90% off and I still feel it was overpriced. I've played way better free flash games.. I discovered this game in 1999. I have spent countless hours with it. It was my initiation to turned based games. It is easy to master, and wonderful in it's concept. You can still play it on windows 7 without major problems.. Pure atmosphere with a fast-and-loose play style, Gun Rage is proving to be a lot of fun so far. I haven't encountered any major design issues, and this game was obviously made with care and a specific vision in mind. I'm sure any possible issues will be addressed. Great art and soundtrack. An early thumbs-up from my quick dip into this tasty, violent, and gory syth-pocalypse.. Very nice set.

gay\u2665\u2665\u2665\u2665\u2665paywall. This game is free, and so I am judging versus the price.

It's a cute little game, so adorable, and I am horrible and puzzles and the like. I still had to use the guide, but I got all but one achievement....and I do plan on playing it again.
. Simple and Fun!.. I'm aware that this is early access,
The camera is blurred when you try and turn, somehow, I managed to open up the dev consol and now I can't get it closed-makes my whole game go green and pink. Some charactars have really low res even at high graphics. Once again, I am aware of it being EA. Any map also gets really smokey even when you fire one shot. The Command GUI doesn't work effictively. However, I have to say how accurate the map itself is.
I honestly don't want to not reccomend this game but in it's current state, I wouldn't reccomend the £10.99 price tag.. Cool concept, but controls are somewhat clunky :\\. you: oh hey i want a civilization!
game: no im gonna crash

d o n t b u y i t. I checked the title and I'm pretty sure this said horror. Bland is I can say. no frights and story weak.
